

TABLE OF CONTENT (PROGRAM)

Keynote

<i>Reinhold Häb-Umbach</i> Sprachtechnologien für digitale Assistenten (Abstract)	1
--	---

(Speech) Assistents

<i>Hans-Günter Hirsch, Alexander Micheel, Michael Gref</i> Keyword Detection for the Activation of Speech Dialogue Systems	2
<i>Bojan Kovachki, Aleksandar Gjoreski, Robert Herms, Matthias Pohl, Martin Wenzel, Frank Seifert, Diane Hirschfeld</i> Increasing Industrial Productivity by Employing a Smart Speech-Based Question Answering Assistant	10
<i>Maria Schmidt, Wolfgang Minker, Steffen Werner</i> User Acceptance of Proactive Voice Assistant Behavior	18

Speech Synthesis

<i>Jürgen Trouvain, Benjamin Weiss</i> Überlegungen zu wahrnehmbaren Lächeln in synthetischen Stimmen	26
<i>Kathleen Große, Peter Birkholz</i> Tongue Mouse - Comparison of Physical Measurement Principles	34
<i>Ian S. Howard</i> Speech Fundamental Period Estimation using a Neural Network	44
<i>Yingming Gao, Peter Steiner, Peter Birkholz</i> Articulatory Copy Synthesis using Long-Short Term Memory Networks	52

Keynote

<i>Michael Beigl</i> Human-Computer Interaction closer to the Body (Abstract)	60
--	----

(Speech) Signal Processing in Medical Applications

<i>Kristian Kroschel, Armin Luik, Jürgen Metzler</i> Contactless Measurement of Heart Sounds and Heart Rate with Laser Doppler Vibrometry	61
<i>Udo Gebelein, Stefan Rapp</i> A Hearing Aid to Visualize the Direction of Sound	69
<i>Konstantin Sering, Fabian Tomaschek</i> Comparing KEC Recordings with Resynthesized EMA Data	77

Paralinguistics

- Simon Betz, Éva Székely, Sina Zarrieß, Marin Schröer, Leonie Schade, Petra Wagner*
Hesitation processing analysis using mouse-tracking and gamification 85
- Thilo Michael, Sebastian Möller*
Simulating Turn-Taking in Conversations with Varying Interactivity 93
- Raphael Werner, Jürgen Trouvain, Bernd Möbius*
Ein sprachübergreifender Vergleich des Pausenverhaltens natürlicher Sprecher in verschiedenen Sprechtempi mit TTS-Systemen 101

Acoustic Signals

- Sneha Das, Tom Bäckström*
Low-Complexity Postfilter using MDCT-Domain for Speech and Audio Coding 109
- Maja Schneider, Oliver Jokisch, Martin Bogdan*
Towards a Robust Analysis and Classification of Dog Barking 117
- Uwe D. Reichel, Andreas Triantafyllopoulos, Christopher Oates, Stephan Huber, Björn Schuller*
Spoken Language Identification by Means of Acoustic Mid-level Descriptors 125

Articulation

- Harald Höge*
The Nature of the Articulatory Code 133
- Antoine Serrurier, Christiane Neuschaefer-Rube*
Comparison of the French and German articulatory spaces 141

Poster

- Enrico Lösch, Oliver Jokisch, Alexander Leipnitz, Ingo Siegert*
Reduction of Aircraft Noise in UAV-Based Speech Signal Recordings by Quantile Based Noise Estimation 149
- Peter Steiner, Simon Stone, Peter Birkholz*
Note Onset Detection using Echo State Networks 157
- Timo Baumann, Burkhard Meyer-Sickendiek, Hussein Hussein*
How to Identify Speech when Translating Unpunctuated Poetry 165
- Ronald Römer, Peter beim Graben, Markus Huber, Peter Klimczak, Günther Wirsching, Matthias Wolff*
Die Welt ist nicht genug! Man muss auch über sie sprechen können 173
- Soyuj Kumar Sahoo, Timo Sowa, Christian Hacker, Thomas Ranzenberger*
Rule-Based Dialog Management for Voice Assistents in Automotive Environments 185
- Mohamed anouar Ben messaoud, Aicha Bouzid*
Speaker Gender Classification based on an Improved Deep Learning Approach 193
- Alicia F. Requardt, Olga Egorow, Andreas Wendemuth*
Machine Learning-Assisted Affect Labelling of Speech Data 199

<i>Marcus Petersen, Karl-Heinz Niedrist, Matthias Busch, Florian Marquardt, Ingo Siegert</i>	
Emergency Service – Sprachbasierte Klassifikation eingehender Anrufe in Ausnahmesituationen	206
<i>Mira Schielke, Henriette Heinrich</i>	
Uneindeutigkeiten in minimalistischen Grammatiken für Zahlworte – Probleme und Lösungsansätze	214
<i>Martin Gottschalk, Juliane Höbel-Müller, Ingo Siegert, Jesko L. Verhey, Andreas Wendemuth</i>	
Filtering-Based Analysis of Spectral and Temporal Effects of Room Modes on Low-Level Descriptors of Emotionally Coloured Speech	219
<i>Reinhold Häb-Umbach</i>	
Sprachtechnologien für Digitale Assistenten	227
<hr/>	
Keynote	
<hr/>	
<i>Jesko L. Verhey</i>	
Listening through a Cochlear Implant (Abstract)	235
<hr/>	
Dialogue	
<hr/>	
<i>Benjamin Weiss, Stefan Hillmann, Thilo Michael, Tilo Himmelsbach</i>	
Zur Automatischen Schätzung von Kostenfunktionen aus Dialogen	236
<i>Ingo Siegert, Matthias Busch, Julia Krüger</i>	
Does Users' System Evaluation Influence Speech Behavior in HCI? – First Insights from the Engineering and Psychological Perspective	241
<i>Stefan Hillmann, Tilo Himmelsbach, Benjamin Weiss</i>	
Vergleichende Untersuchung von Reinforcement Learning Verfahren beim Training eines Dialog Managers	249
<hr/>	
Quality	
<hr/>	
<i>David Meier, Bistra Andreeva</i>	
Einflussfaktoren auf die Wahrnehmung von Prominenz im natürlichen Dialog	257
<i>Oliver Niebuhr</i>	
"Space fighters" on stage - How the F1 and F2 vowel-space dimensions contribute to perceived speaker charisma	265
<i>Sebastian Möller, Tobias Hübschen, Gabriel Mittag, Gerhard Schmidt</i>	
Relationship Between Root Causes of Impairments and Perceptual Quality Dimensions of Super-wideband Transmitted Speech	278
Author Index	287
